## 24/7 crisis response instruction to drivers

Employ Recruitment know that you, the driver, are their most important asset. Whilst it is hoped that you are never in the position of being in a serious or fatal collision, in the event of the worst happening, Employ want to ensure that you are protected from the moment that a collision occurs.

Employ have a 24/7 legal assistance service in place with LMP Legal meaning that any driver involved in a **police attended/blue light attended collision** should follow the instructions below:

- **DO** exit your vehicle if it is safe to do so and call 999 if someone hasn't already;
- **DO** confirm your name and the vehicle you were driving to police at the scene
- **DO NOT** give any further account or answer any further questions from the police until you have had legal advice;
- **DO NOT** give accounts to witnesses at the scene
- **DO** phone the LMP Legal 24/7 legal assistance line on

**0333 242 2976**

If you have had your phone taken by the police before you have the opportunity to call the number, please ask the police to do so. It is acceptable and legal to await advice from your Lawyer before speaking with the police. This service does not cost you anything and is covered by Employ. However, the Lawyer provided to you is your Lawyer and is there to protect **you**.

You will receive immediate telephone advice and a Lawyer will then attend the police station should you be conveyed to the police station immediately following the collision.
